MONTHLY PROGRESS REPORT

Name of Listed Issuer: InnoCan Pharma Corporation (the "Issuer").

Trading Symbol: INNO

Number of Outstanding Listed Securities: 249,620,968

Date: December 1, 2022

This Monthly Progress Report must be posted before the opening of trading on the fifth trading day of each month. This report is not intended to replace the Issuer's obligation to separately report material information forthwith upon the information becoming known to management or to post the forms required by Exchange Policies. If material information became known and was reported during the preceding month to which this report relates, this report should refer to the material information, the news release date and the posting date on the Exchange website.

This report is intended to keep investors and the market informed of the Issuer's ongoing business and management activities that occurred during the preceding month. Do not discuss goals or future plans unless they have crystallized to the point that they are "material information" as defined in the Policies. The discussion in this report must be factual, balanced and non-promotional.

General Instructions

- (c) Terms used and not defined in this form are defined or interpreted in Policy 1 – Interpretation and General Provisions.

Report on Business

1. Provide a general overview and discussion of the development of the Issuer's business and operations over the previous month. Where the Issuer was inactive disclose this fact.

The Issuer is focused on the R&D, production and marketing of Health-Tech Innovations for CBD Healthcare and Consumer Lifestyle Products.

The Issuer is developing a novel cannabinoid delivery technology with world known scientists, in order to enable the injection of CBD & other cannabinoids.

Patent spotlight:

REVOLUTIONARY INJECTABLE CBD DELIVERY SYSTEM

Oral ingestion of CBD effectiveness is substantially lost via metabolic breakdown. Injection is an ideal delivery method as it would vastly increase the bioavailability of CBD.

CBD is an oil substance. However, oils cannot be safely injected. The issuer is working on a solution through research done by an experienced team from the Hebrew University of Jerusalem: a cannabinoid delivery technology enabling the injection of cannabinoids into the blood stream via a unique cannabinoid loaded Liposome Platform Technology ("LPT"). LPT has the potential to become a licensing platform to large pharmaceutical companies for specific cannabinoids / indications.
