### Report on Business

#### 1. *General Overview and Discussion*

**Glenbriar Technologies Inc.** (CNQ:GBRT) provides leading edge business-driven technology. Glenbriar's **Peartree Software Inc.** division develops Web-based software solutions for specific market verticals. Glenbriar adds post-carrier IP telephony, call centres and support services to deliver complete technology management solutions. Glenbriar has locations in Alberta, British Columbia and Ontario.

#### 2. *Activities of Management*

To date, Glenbriar has funded its research and development from internal sources, including cash flow and disposition of non-core assets. With some products and solutions now ready, and others expected to be completed in the coming months, additional funds will be required to engage in product rollouts, marketing and sales, and make strategic acquisitions.

In June 2006, Glenbriar entered into an agreement with Baltic Investment Group to provide strategic investor relations and corporate communications services. Glenbriar has embarked on a shift towards commercialization of its strong portfolio of technology solutions, and is implementing a comprehensive investor relations and communications program to increase visibility and market awareness. Baltic had no previous financial interest, direct or indirect, in Glenbriar or its securities. Baltic has informed Glenbriar that it expects Glenbriar's common shares will be posted for trading on the Frankfurt Stock Exchange by mid-August 2006.

Glenbriar has appointed Valiant Trust Company as its registrar and transfer agent. Effective July 1, 2006, Valiant Trust Company replaced CIBC Mellon Trust Company as registrar and transfer agent for Glenbriar's common shares. From that date forward, all inquiries and correspondence relating to shareholder records, transfer of shares, lost certificates, or change of address should be directed to Valiant Trust Company as follows:

17. *Market, Political and Regulatory Trends Affecting Glenbriar*

The rising Canadian dollar reduces revenue from US accounts, which are priced in US dollars. This negative impact will continue to rise with any further rise in value of the Canadian dollar against the US dollar. In addition, the continued downturn in North American automotive manufacturing is expected to reduce the number of plants in North America, which is expected to result in reduced demand for software and services from parts manufacturers and distributors that operate in that sector. Peartree supplies software and services in this sector.
